Card Index and Filing Cabinets

THE point above all others which we ask you to consider in C & B cabinets and filing devices is their *practicability*. They embody no fads or experiments. They are built throughout for simplicity and mechanical smoothness. They are as durable as the best materials and soundest cabinet work can make them. They will render business-like service under constant hard use, year in and year out.

Materials

In oak cabinets, only carefully matched, first grade, Indiana quartered white oak is used. Mahogany is of highest quality, selected for beauty of grain and color. All interiors are of hard wood. Backs of the horizontal sections are 3-ply stock, stained to match color of the oak.

Finish

Oak cabinets are regularly finished in natural or golden oak, rubbed down to egg-shell surface which does not readily show scratches or abrasions. Any other finish supplied.

Hardware

Exterior hardware, with three exceptions, is of *solid cast brass*. Exterior hardware on suspension letter files and *suspension* document and legal blank files is of heavy stamped brass. Brass is finished oxidized copper, but polished natural brass will be supplied when desired.

Suggestive Stacks

"A"

A stack made up like this is well adapted to care for the records of a Purchasing Department. Provision is made for filing correspondence, quotations, names and addresses of vendors, samples, catalogs, etc. The deep sections at the bottom provide convenient shelf space on which to rest matter which is being referred to.

Stack consists of base section (No. 76622), box drawer section (No. 76326), vertical letter file section (No. 73202), card cabinet section (No. 71315), document file section (No. 74206), bookcase section (No. 75711) and crown section (No. 76512).

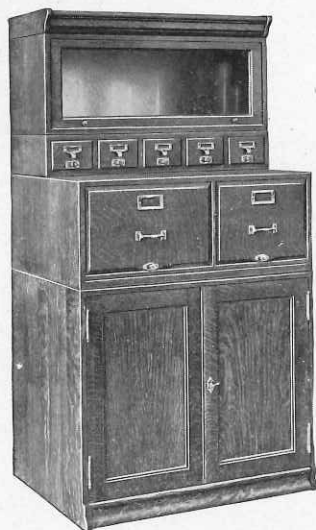

"A"

"B"

This stack provides for filing correspondence, card records, blue prints or drawings, and other papers.

It consists of base section (No. 76622), box drawer section (No. 76326), box drawer section (No. 76324), vertical letter file section (No. 73202), card cabinet section (No. 71315), suspension letter file section (No. 73106) and crown section (No. 76512).

"C"

"C"

This stack well illustrates the perfect adaptability of the horizontal units to special needs. It provides large storage space, vertical filing for both legal size papers and correspondence, and card record, together with shelf room for books.

Stack consists of cupboard section (No. 76720), combination legal and letter file section (No. 73202 X), card cabinet section (No. 71305), bookcase section (No. 75711) and crown section (No. 76512).

"B"

Sectional Filing Cabinets

SECTIONAL cabinets are one of the great developments in modern filing equipment.

In a growing business it is impossible to foresee the exact amount of filing space that will be required for correspondence and other papers or card records.

Sectional cabinets may be bought to meet immediate needs, and additional units added from time to time as they are required. The advantages are obvious.

Sectional files may be adapted to almost any space, and by a mere change of arrangement will economize floor or wall room as may be necessary.

If certain sections cease to be useful in one department of a business they may be transferred to another.

They are, in fact, capable of almost infinite rearrangement and adaptation.

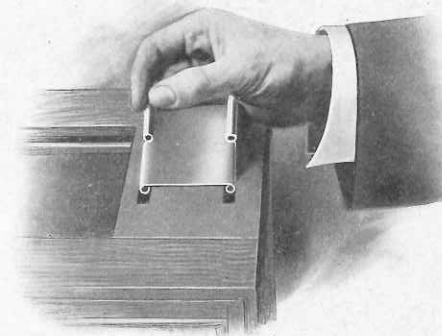

C & B Locking Device

The usefulness of the sectional form of cabinet has been greatly increased by our invention of a thoroughly satisfactory locking device to take the place of the unsightly and insecure metal bands or mouldings so widely used to hold sections together.

This locking device joins the sections at top and bottom, leaving unbroken the finished surfaces of the cabinet, and makes a stack of sectionals as steady, rigid and sightly as a solid cabinet.

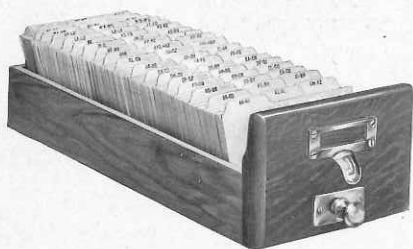

The locking device is also used to join sections horizontally.

It is entirely invisible when sections are in place, and cannot get out of order.

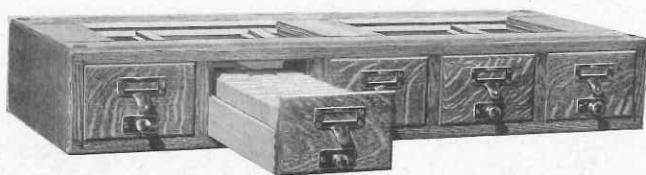

Card Index Sections

WE furnish card index sections for the three standard sizes of cards, 3 x 5 inches, 4 x 6 inches and 5 x 8 inches. These sections will also carry corresponding centimeter sizes, 7½ x 12½ centimeters, 10 x 15 centimeters and 12½ x 20 centimeters, respectively. Tray interiors are hardwood, dovetailed construction and cut down at sides to facilitate rapid handling of cards. Each tray is fitted with an adjustable block to hold cards in compact shape and with quarter-turn round rod unless some other form of rod is specified. Cases with and without rods are carried in stock. We supply also folding or screw rods without extra charge. Lock rods at 25 cents per tray extra.

Five-Tray Card Index Section

For 3 x 5 in. or 7½ x 12½ centimeter cards

Cat. No.

71305

Capacity:—5500 light weight cards and 200 guides
5000 medium weight cards and 185 guides
4000 heavy weight cards and 150 guides

Outside dimensions	High	Wide	Deep
	5¾ in.	33 in.	13½ in.

Mahogany				" " 21.50

Sliding Shelf Section

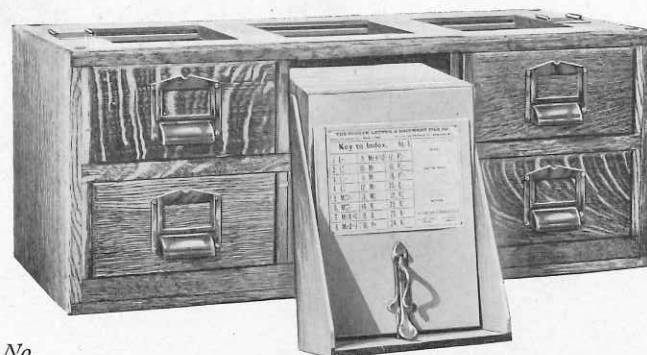

Cat. No.
76040

Two shelves which may be drawn out to hold card trays, books, papers or other articles needed in work at cabinet.

Dimensions	High 2½ in.	Wide 33 in.	Deep 13½ in.	
Quartered Oak				\$3.50
Mahogany				5.00

Suspension Letter File Section

Cat. No.
73106

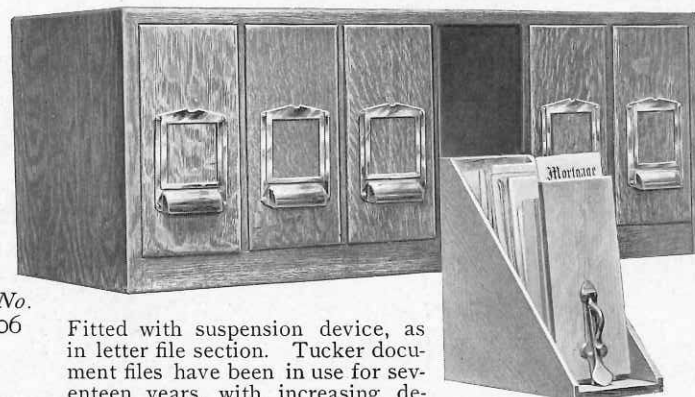

Each drawer has compressor board, which keeps the contents in perfect order and greatly increases the capacity. Letter headings appear at top when file is in use.

The suspension device is simple and durable, and can be quickly released when entire removal of the file is desired. Equipped with alphabetical index covering all the files, and set of stock labels.

Capacity of each drawer, 500 letters.

Quartered Oak With indexes, \$12.00
Mahogany " " 17.50

Document Suspension File Section

Cat. No.
74206

Fitted with suspension device, as in letter file section. Tucker document files have been in use for seventeen years, with increasing demand. They have been constantly improved and are the most durable, convenient, smooth-working document files made.

Quartered Oak Cabinet only, \$10.00
Mahogany " " 14.50

Suggestive Stacks

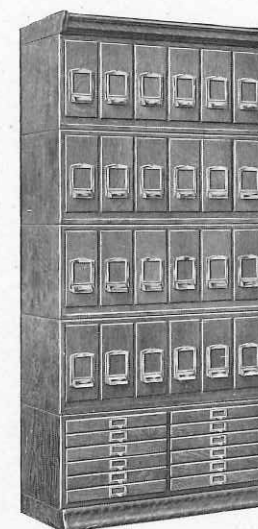

"E"

Low stack consisting of leg base section (No. 76822), box drawer section (No. 76326), vertical letter file section (No. 73202) and crown section (No. 76522).

This stack is low enough to permit of the top being used for books of reference, such as a directory or mercantile agency book.

"E"

"D"

"D"

A stack of document files with drawers at bottom for storage and blank forms. A combination used in many lawyers' offices. The document files are fitted with suspension devices for convenience of reference.

"F"

A very practical correspondence file.

Stack consists of leg base section (No. 76822), two vertical letter file sections (No. 73202) and crown section (No. 76522).

"F"

Legal Blank Section

Cat. No.
76312

Contains 12 drawers of proper size for storing various forms of legal blanks.

	High	Wide	Deep	
Outside dimensions	13 in.	33 in.	13½ in.	
Inside of each drawer	1⅜ "	14⅞ "	9 "

A MODEL FILING ROOM. ALL THE PAPERS OF A BUSINESS HOUSE IN PERFECT ORDER AND INSTANTLY ACCESSIBLE.
C & B EQUIPMENT.

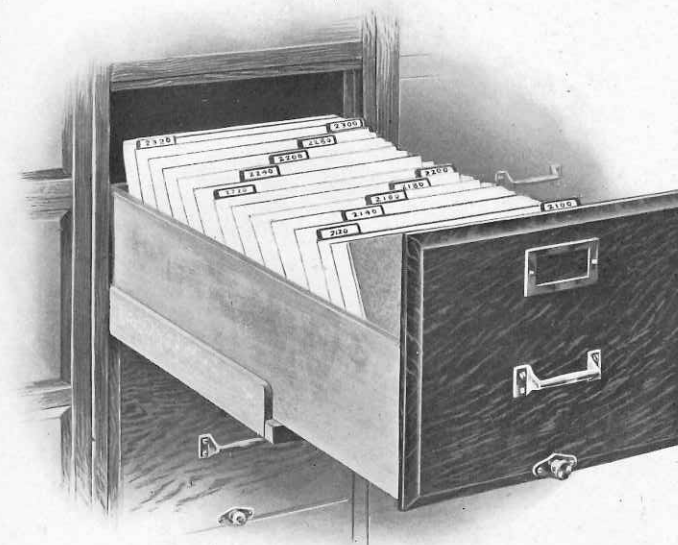

Vertical Filing Sections

THE vertical file is rapidly superseding all other methods for filing not only the letters of a business house, but invoices, orders, duplicate bills, requisitions, credit reports, catalogues and legal papers. In simplicity, accuracy and ease of reference it is unequalled. It lends itself readily to expansion and has a much greater capacity than any other file. It is equally adapted to numeric, alphabetic or geographic filing, full descriptions of which will be sent on request.

Our vertical files have important advantages possessed by no others.

Drawer Slides

The patented drawer slides found exclusively in our files support the drawer from both side and bottom. Experience has shown that they will carry more weight and stand more hard use than any other support made. They make the drawer action perfectly easy even when files are completely filled, hold the drawer level while in use, and are fitted with stop checks to prevent drawing entirely out.

Vertical File Drawer, showing C & B Drawer Slides

Drawer interiors and slides are of hard wood, dovetailed construction, and are built throughout to stand the severest use.

Drawers are fitted with locking block, adjustable at any point to hold folders at proper angles. When equipped with our metal tipped guides (page 25) these vertical files offer the maximum of satisfaction to be obtained in letter-filing equipment.

Vertical Letter File Section

Cat. No.

73202

Capacity of each drawer, 3000 letters in folders, with guides.

Quartered Oak			Cabinet only, \$17.50
Mahogany			" " 25.00

Upright Sectional Files

THE C & B upright sections are considered by many users to be the best form of sectional cabinet.

A single section, or two or more sections joined together, give the appearance of a solid cabinet. Yet so simple is the method of joining that any number of sections may be quickly and easily combined into a single cabinet, and as readily separated.

These cabinets have unusual capacity. On the basis of filing space they are the least expensive form of sectional cabinet made.

For construction and finish of these cabinets see page 5.

How Sections are Joined

Fig. 1—Complete single section cabinet is made up of the single section and detachable ends which are bolted by strong thumb screws to the interior frame of the cabinet.

2

Fig. 2—To add another section, unbolt and take off one of the ends. Bolt the new section to the original section, and bolt end in place.

3

Fig. 3—The result is a cabinet as strong and permanent as any solid-built file, yet capable of being divided and added to at any time. Joining bolts are wholly interior, and invisible when sections are joined.

Upright Sections—Vertical Letter File

	High	Wide	Deep
Outside dimensions	51 in.	15 5/8 in.	29 3/8 in.

Numbering, 50 cents per 1000 extra.

Guides for Vertical Letter Files

The Metal Tip Guide—A guide so perfectly adapted to vertical filing as to make the ordinary guide seem crude and inadequate. Its two great points are that *it is practically indestructible* and that *the guide heading can be changed at will*. It is as rigid and durable as an all-metal guide, without the weight and clumsiness. The tab or projection is a metal label holder, securely attached to the heavy jute-board. No amount of hard use will affect it. The guide heading can be changed at any time by simply changing the label in the label holder.

The Metal Tip Guide can be handled more rapidly than any other form of guide, and its rigidity serves to keep the file in compact condition. It is the only guide which gives

adequate support to the papers or folders, keeping them erect and in alignment.

Bases for Smaller Cabinets

The question often arises where to put small card cabinets. Our bases of special design bring cabinets to a convenient height for ready reference. Where more than one person has to make use of a given record, a revolving top adds greatly to ease of access.

Cat. No.		Top	High	
7102T	To hold 2, 4 or 6 tray cabinet for 3 x 5 inch cards.			
	Dimensions	14 5/8 x 15 1/4 in.	26 in.	
	Quartered Oak, Natural or Golden finish			\$6.00
7102TR	Same with revolving top			7.50
7103T	To hold 9 or 12 tray cabinet for 3 x 5 inch cards.			
	Dimensions	15 1/4 x 20 3/4 in.	26 in.	
	Quartered Oak, Natural or Golden finish			\$7.00
7103TR	Same with revolving top			8.50

	Tray only				\$4.50
	Complete				8.00

Index Cards

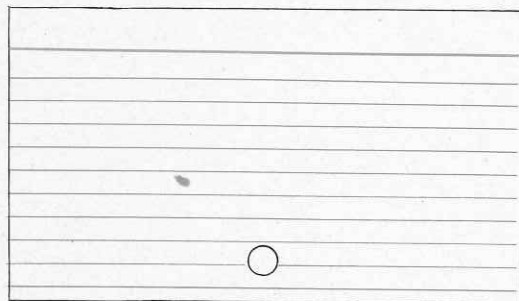

Grades.—The "Clarke grade" linen card stock has been the standard for nearly twenty years. Card records on this stock installed that long ago are still in use, and show no appreciable deterioration. They will last for generations longer. There is no poorer economy than putting a permanent record on a cheap card which must be replaced every few years.

Clarke stock is made from a formula known only to us. Though it has been widely imitated, it has positively no equal for durability, writing surface, erasive qualities and "snap."

The Brentwood grade linen card stock, though not equal to the Clarke stock, is a splendid card for commercial records where the greatest permanency is not required.

Our No. 2 commercial grade is a good writing stock and highly satisfactory for records of a temporary nature.

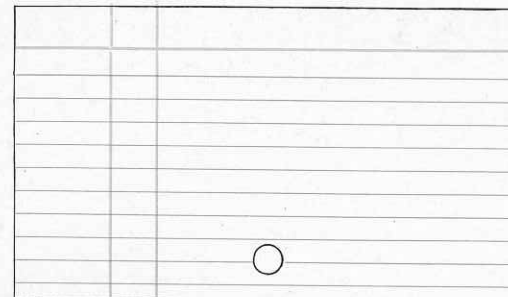

Rulings: Cards are carried unruled and in the following four rulings:

Standard Ruling

The standard ruling for commercial card records.

Prices on pages 44-45.

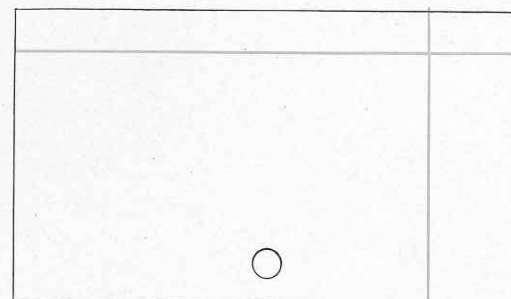

Library Ruling

A very useful form of ruling where dates or prices, or both, are part of the card record.

Also the standard ruling for library catalogues.

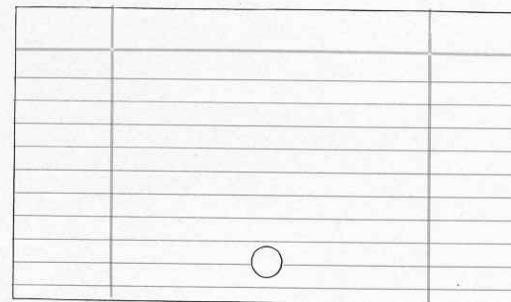

Prices on pages 44-45.

Correspondence Index Ruling

Used chiefly for index to correspondence vertical filing system.

Prices on page 46.

Record Ruling

Another form of ruling for use where dates or prices are part of the card record.

Prices on page 46.

Standard weights: light, medium and heavy.

Standard sizes: 3 x 5 inches, 7½ x 12½ centimeters; 4 x 6 inches, 10 x 15 centimeters; 5 x 8 inches, 12½ x 20 centimeters.

Punches.—Where protection from carelessness is required, we strongly recommend the round rod. Many concerns, however, are finding it very satisfactory to drop rods entirely.

We furnish cards punched for any style of rod without extra charge.

Price List of Unruled, Standard Ruled and Library Ruled Cards

COLORS CARRIED IN STOCK

CLARKE STOCK is carried in White, Buff, Blue and Salmon, in unruled cards and Standard ruling, in all weights: Library ruling in White only, all weights.

BRENTWOOD STOCK is carried in White, Buff, Blue, Salmon, Fawn, Green, Cherry, in unruled cards and Standard ruling, in light and medium weights: White, Buff, Blue and Salmon only in heavy weight: Library ruling not carried in colors.

Guide Cards

Guide cards are to any card index or filing system what sign-boards are to the streets of a city. They mark definite locations in the file and insure speedy finding of the card sought. A card system inadequately or improperly guided loses much of its efficiency. We recommend the insertion of a guide every 20 cards.

The Metal Tip Guide

The most important development ever made in guide cards. Its two great points are : 1.—It is practically indestructible. 2.—The guide heading may be changed at will.

This guide is as rigid and durable as an all metal guide without the excessive weight or clumsiness. The wear of every guide comes on its projection. The projection of this guide is a metal label holder, securely attached to the heavy press board of the guide, and no amount of hard use will affect it.

The guide heading can be changed at any time by simply changing the label in the label holder. The ordinary guide once printed can be used at one point in the card index only. The Metal Tip Guide can be used over and over again.

The Metal Tip Guide can also be handled more rapidly than any other form of guide, and its rigidity serves to keep the contents of file compact.

Standard Guides

These are made of the best linen ledger stock, heavy weight, and are exceptionally durable.

Printing on Guides

We carry in stock guides printed with all subdivisions of the alphabet, the States and Territories, months, days of the month (1-31) and towns in the United States of two thousand or more inhabitants. Specially printed lists of guides are furnished for a slight additional cost. Prices on request.

Perforation

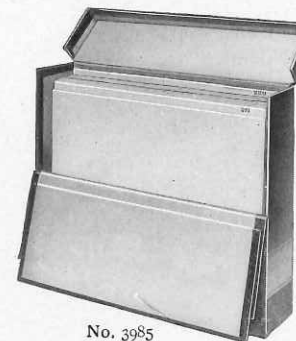

Guides are furnished punched for the round rod, unless specified otherwise. Punching for any other style of rod supplied without extra charge.

Arrangement of Projections	All guides in this table have nickeloid tips. The body of press board.	METAL TIP GUIDES												LINEN GUIDES

Transfer Cases

The best method of transferring letters from the vertical file. The correspondence stands in exact order as in the original file, and can be referred to much more easily than if stored in larger boxes. Made of heavy straw board, covered with marbled paper, the corners strongly reinforced with cloth.

We call special attention to No. 3985. This is the strongest transfer case made. It has solid wood ends, to which are securely fastened heavy straw board sides and top, reinforced at edges with cloth, and covered with green enameled paper. Hinge is especially strengthened with metal strip.

No. 3985

Cat. No. High Long Wide
3985 Outside dimensions . . . 10 1/4 in. 13 3/8 in. 3 3/8 in.
Each . . . 40c. Per 10 . . . \$3.20 Per 100 . . . \$26.00

For transfer from legal vertical file.

Cat. No. High Long Wide
L3985 Outside dimensions . . . 10 1/4 in. 16 3/8 in. 4 3/8 in.
Each . . . 60c. Per 10 . . . \$4.80 Per 100 . . . \$42.00

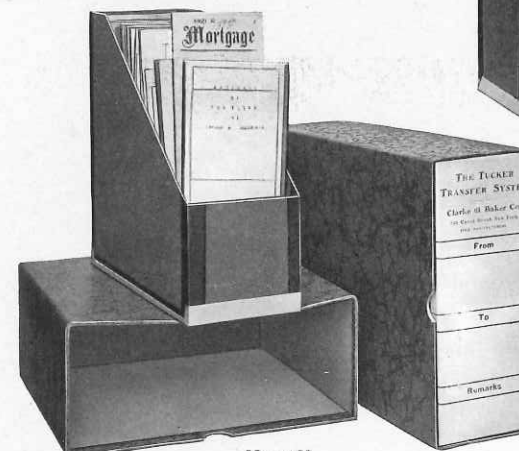

For transfer from credit or invoice vertical file.

Cat. No. High Wide Deep
3983 Outside dimensions . . . 8 1/4 in. 2 3/8 in. 10 1/4 in.
Inside dimensions . . . 8 " 2 1/8 " 10 "
Each . . . 25c. Per 10 . . . \$2.25 Per 100 . . . \$20.00

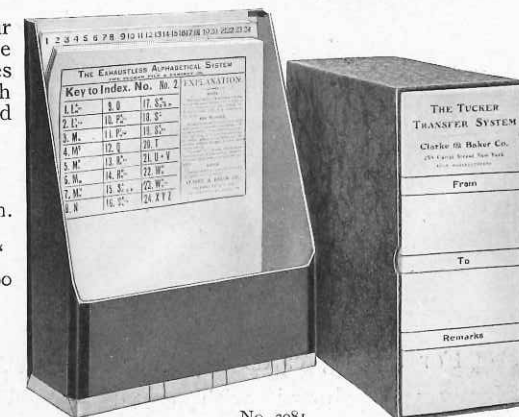

Suspension Letter File Transfer

Used for transfer of contents of our suspension letter file. Made in telescope form, of straw board, reinforced at edges and corners with cloth, and covered with marbled paper. Label is height of case and permits of full description of contents.

Cat. No. High Wide Deep
3981 Outside dimensions . . . 9 7/8 in. 4 1/8 in. 12 1/2 in.
Inside dimensions . . . 9 3/8 " 3 3/8 " 12 1/4 "
Each . . . 30c. Per 10 . . . \$2.50 Per 100 . . . \$22.00

No. 3988

No. 3981

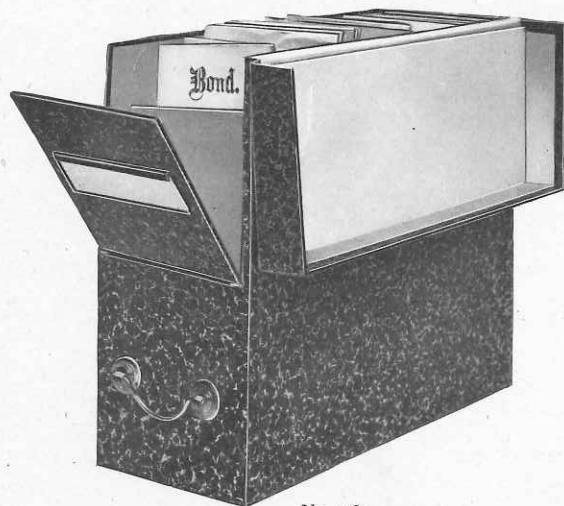

For Legal Papers and Vouchers

Used principally by lawyers for storing legal papers folded; also for vouchers. Same general style as No. 3981.

Cat. No. High Wide Deep
3988 Outside dimensions . . . 10 1/2 in. 4 1/2 in. 10 1/4 in.
Inside dimensions . . . 10 " 4 " 9 3/4 "
Each \$.35
Per 10 2.90
Per 100 25.00

Another Form for Legal Papers and Vouchers

Where Constant Handling is Required

Made of heavy binder's board reinforced at edges with cloth, covered with black marbled paper, upper half of front hinged to drop forward. Fitted with brass pull and label holder.

Cat. No.	High	Wide	Deep
3989 Outside dimensions	10½ in.	4¾ in.	12 in.
Inside dimensions	10¼ "	4¾ "	11¾ "
Each . 65c.	Per 10 . \$5.00	Per 100 . \$45.00	

Transfer Box

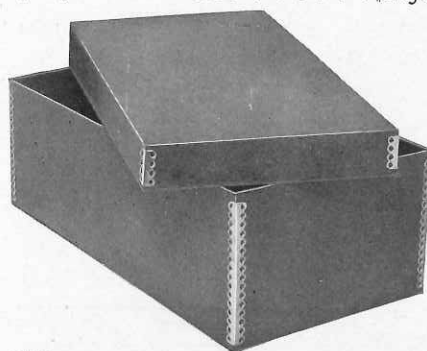

For transferring the entire contents of vertical file where correspondence is seldom referred to, and storage space is the sole consideration.

On account of extreme weight when filled and difficulty of handling, we do not recommend this style of box.

Cat. No.	High	Wide	Deep
3986 Outside dimensions	10¾ in.	12¾ in.	26½ in.
Inside dimensions	10¾ "	12 "	25½ "
Each \$1.50	Per 10 \$12.50	Per 100 \$115.00	

Card Transfer Boxes

For storing cards not in active use. Heavy print board, with metal bound corners and label on front to mark contents. Made large enough to receive the guides. Capacity 1000 light weight cards.

Cat. No.	High	Wide	Deep
1301 H Outside dimensions	3¾ in.	5¾ in.	10¾ in.
To fit card 3 x 5 inches			
1401 H Outside dimensions	4¾ in.	6¾ in.	10¾ in.
To fit card 4 x 6 inches			
			\$0.25
			\$0.30
